Attention: Robert L. Schmidt

Gentlemen:

Thank you for your letter of November 2, 1961 in regard to the pits on our Mountain States-Rabbit No. 1 well.

This location was very near the rim of a small canyon. We attempted to move south, but the position on the rim of the canyon got progressively worse. Mr. Charles T. Tillotson, Cortez, Colorado, who built the location decided that the original staking was the best position. Our only alternative would seem to have been to attempt to get permission of the leaseholder to the east and move in that direction.

Mr. Tillotson used seven cases of dynamite in six days of shooting to make the location on the rim of the canyon. He also constructed a by-pass north of the pits to take care of the drainage from the main canyon. I shall caution our Superintendent, Mr. Paul N. Amick, to check to see that this by-pass does function properly. On my next trip over there, I will contact Mr. Coonts and discuss this with him.

We appreciate your calling this to our attention and we will endeavor to comply with your suggestion.
